## INTERGEN Press Release 4: November 2022

In October the **sixth transnational meeting** was held in Rimini at the ETN headquarters. All the InterGen partners discussed in the presence of the next activities to be carried out. It was two intense days of work!

**We have also produced the INTERGEN BRIDGE Guide & Pedagogical Materials for Educators:** This features a pedagogical materials based on CoP & peer learning methods for job centres; adult educators, institutions & organisers to put into the INTERGEN BRIDGE MODEL into practice in interesting, innovative ways appropriate to BOTH target groups so as to facilitate mutual respect in addition to the effective learning & sharing of ideas, knowledge & experience of participants to develop key competences, a European identity & social inclusion by combatting age-related discrimination.

**Thirdly, the INTERGEN BRIDGE Guide & Training Modules using CoP & peer learning methods for younger & older adult learners has been created .** This features an innovative activity-based methodology in ways appropriate to BOTH target groups to allow younger & older adult learners to develop mutual respect, combat discrimination, exchange ideas & knowledge in order to develop an idea of European identity, entrepreneurship, their understanding and competences. (Step by Step & ADICE)

**Finally, we have developed INTERGEN Online Training Tutorials to facilitate job-market access for adult learners:** tutorials on how to link their learning during the INTERGEN programme with Europass CV to best showcase their competences to potential employers & prepare appropriately in order to access the job market.

Partners finished Pre-Testing of the INTERGEN Outputs in August 2022. Fine-tuning took place in light of the feedback from the Focus groups & from partners.

The Experimentation Phase has now started where external organisations & real-life Adult Learners are testing the outputs in live-learning situations.

The partners are currently managing 7 pilot studies in each of the countries taking part in the project (France, Latvia, Finland, UK, Greece, Italy & Iceland). These pilot studies will address different target groups and will feature different types of educational organisations. Partners will collect data which will then be analysed to improve the project outputs, making minor modifications if needed.

Evaluation Workshops are taking place during the external testing period. They are organised in each partner country in November 2022 for project stakeholders & representatives of target groups who have made first-hand use of the output. Participants include staff and adults who have used the INTERGEN BRIDGE Guide & Pedagogical Materials. The aim of the workshops is to gather suggestions, ideas, remarks & recommendations to further improve the materials.
