

## INTERGEN Evaluation Workshop

The evaluation workshop of the INTERGEN project, implemented by the executives of the Development Agency of Karditsa, was successfully completed. In this workshop, organizations of our city had the opportunity to interact by evaluating the produced educational material of the project, which is expected to be finalized and published soon after the completion of the project on the project website <https://www.intergenproject.com/>

We would like to thank the Women's Centre of Karditsa, the Civil non-profit organisations Ecoperativa and Helix-Innovation Hub, as well as the CLLD (Community Led Local Development) LEADER of ANKA for their valuable contribution and their very constructive feedback on the produced educational material.
